New Generation Ministries and Newsong Youth Resource Center are working together to honor Spokane’s rich heritage during the 100 year anniversary of the origination of Father’s Day. We need to Honor the Fathers of Faith who have pioneered significant movements in our region. We are expecting a release of the inheritance that these great fathers represent, into the next generation. Come be a part of an Elijah to Elisha like generational blessing. Honoring and re-digging wells are instrumental for the passing of the torch of double portions from fathers to the sons of this generation.
